A =  mm Diameter of the piston rod

B =  mm Diameter of the cylinder

C =  mm Piston rod stroke (without thread)

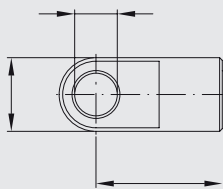

D =  mm Overall length (without thread)

E =  mm Overall length (centre connection to centre connection) N =  Extension force (in Newtons)

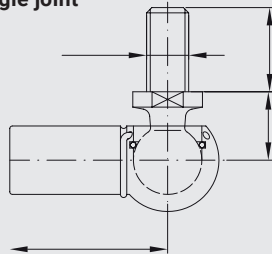

The total length in the extended state results from the dimension from the centre of the connection to the connection.

### Possible connections

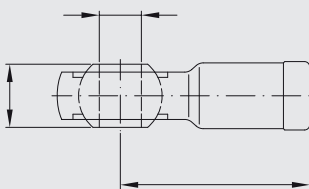

Eye

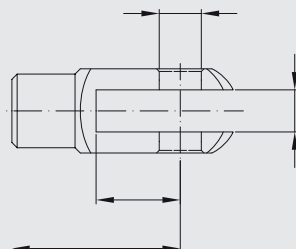

Angle joint

Hingeeye

Clevis
